## WARNING

- From birth to 5 months.
- The toy is intended to be assembled by adult.
- To be used under the direct supervision of an adult.
- Possible entanglement or strangulation. Remove toy when baby begins to push up on hands and knees.
- Attach this toy out of the reach of the child. To prevent possible injury by entanglement, remove this toy when the child starts trying to get up on its hands and knees in a crawling position.
- Remove the cord loop before giving the rattle toys to a child - finger injury hazard.
- This toy is not intended to be "mouthed" by the baby and should be positioned clearly out of reach of the baby's face and mouth.
- On cribs with adjustable mattress levels, the highest position may allow the toy to be too close to the baby. The second or lower position is more appropriate.
- The drop side of the crib should never be lowered with the toy in place and the baby left unattended.
- Always attach all provided fasteners (strings, straps, clamps, etc.) tightly to a crib or playpen according to the instructions. Check frequently.
- Do not add additional strings or straps to attach to a crib or playpen.
- Keep away from ignition sources.

- 
- Crib hanging toys are not meant for children to hold in their hands;
  - If a hanging toy is attached to a crib or play fence, remove it when the baby begins to stand on his hands and knees;
  - If mounted on a wall or ceiling, the hanging toy should be installed so that it is clearly out of reach of a standing infant;
  - According to the requirements of the instructions, the provided fasteners (rope, strap, fixture, etc.) should be firmly connected to the crib or game fence, and often checked;
  - No other ropes or straps should be attached to a crib or play fence.
